

The Fryette® Pittbull® Ultra-Lead® (formerly branded VHT®) is the secret sonic weapon of metal guitarists and studios across the world. This criminally underrated amp head dishes out some of the tightest, most thickly distorted all-tube tones in history, making it ideal for players who want every note they play to explode off their fretboard. The Pittbull Ultra-Lead is also one of the most tweakable high-gain tube amps you're likely to find. With its onboard 6-band EQ and range of boost, shift, and Edge switches, you can precisely dial your perfect version of an impossibly aggressive metal tone.

Along with his namesake amps, Steven Fryette has been instrumental in the development of Synergy Amplification. So, adopting the man's most intense and lauded preamp circuit into one of our preamp modules was destined to happen. Not only did Fryette re-create the Pittbull's sonic signature in flawless detail, but he even managed to fit the amp's 6-band EQ and forward-thinking tonal control onboard. If you are looking for a simple and affordable way to add astonishing high-gain tones and extreme flexibility into your rig, the Synergy Amplification Fryette Pittbull Ultra-Lead preamp module is the perfect tool for the job.

By partnering with such iconic amplifier designers as Steven Fryette, we're able to offer you these sought-after tones in all-tube designs that are perfect for the direct-recording, lower-stage-volume, and compact-guitar-rig demands of today. It's easy to see why the Synergy preamp module system is taking the industry by storm.

CATHODE SELECT FUNCTION:

Many of the new Synergy modules, come equipped with a 3-position switch that allows you to configure the input tube bass response to match the original circuit of the selected module. Each amp designer has a specific combination of components that make up their input tube circuit. This will affect the feel and tightness. The Pittbull Ultra-Lead differs from this arrangement in that it automatically selects between the two profiles that ideally match the intended performance of each channel. This ensures that each channel mode will exhibit the feel and tonal balance that the Ultra-Lead is known for.

NOTE: Setting the channel MASTER VOLUME controls to very high settings may cause the Graphic Equalizer to overload. When this occurs, the small red CLIP indicator on the front panel will light. If the CLIP indicator is just starting to flash, you will not hear any distortion. If the indicator is lighting constantly, you may hear some added compression and distortion. Only extreme Master Volume or Graphic EQ settings will cause a noticeable or unpleasant distortion sound. The CLIP indicator may light regardless of whether or not the EQ is engaged. This is normal. To prevent worst case distortion, simply keep the Master Volumes in the 12 o'clock to 2 o'clock range. Overloading the EQ WILL NOT cause any damage to the circuitry.

SYNERGY LIMITED THREE-YEAR WARRANTY

Thank you for choosing SYNERGY. We take great pride in an extremely thorough testing procedure which is implemented on each product prior to shipment. In the unlikely event that you have a problem with your module, please refer to warranty below. SYNERGY stands behind our products like no other and we're here to help you!

SYNERGY offers a limited Three (3) Year warranty to the original purchaser that this SYNERGY module will be free from defects in material and workmanship. A dated sales receipt will establish coverage under this warranty, PLEASE KEEP YOUR PROOF OF PURCHASE TO USE YOUR WARRANTY. This warranty does not cover service or parts to repair damage caused by accident, neglect, abuse, normal & wear, disaster, misuse, abuse, over-powering, negligence, inadequate packing or shipping procedures and service, repair or any modifications to the product which have not been authorized or approved by SYNERGY in writing. **ANY MODIFICATION TO THE AMPLIFIER WILL VOID YOUR WARRANTY.** If this product is defective in materials or workmanship as warranted above, your sole remedy shall be repair or replacement by SYNERGY as provided below.

CAUTION: Do NOT attempt to repair, modify or service your module by yourself!!! Please read the instruction manual for all safety notifications, warnings and instructions. SYNERGY modules have extremely high voltages that can cause serious injury or death. All repair and service work must be performed by SYNERGY or an authorized service center of SYNERGY. ANY UNAUTHORIZED REPAIRS WILL VOID YOUR WARRANTY.

TUBES: SYNERGY warrants the original purchaser that the specific tubes used in SYNERGY will be free from defects in material and workmanship for a period of 90 days from the original date of purchase. A dated sales receipt will establish coverage under this warranty. This tube warranty will automatically terminate 90 days after the original retail sales date. This tube warranty is in lieu of all other expressed warranties. If tubes fail within the 90-day warranty period, your sole remedy shall be replacement of tubes as provided below.

RETURN PROCEDURES: In the unlikely event that a defect occurs please email support@SynergyAmps.com. A member of our staff will email you a response in a timely manner. Please include your phone number in case our customer service department needs to reach you. In most cases we can help you diagnose the problem over the phone. If a product must be sent to us, please follow the procedure outlined below.

- Defective products must be shipped, together with proof of purchase, freight pre-paid and insured to the Authorized SYNERGY Service Center or directly to SYNERGY.
- If a product must be returned to SYNERGY for warranty replacement/repair, a Return Authorization Number must be obtained from our Customer Service Department prior to shipping the product.
- Please contact SYNERGY Customer Service Department for the Authorized SYNERGY Service Center nearest you.
- Products must be shipped in their original packaging or its equivalent; in any case, the risk of loss or damage in transit is to be borne by the purchaser.
- Please send to: SYNERGY - 5300 Harbor Street., Commerce, CA 90040
- The Return Authorization Number must appear in large print directly below the shipping address.
- Always include a brief description of the defect, along with your correct return address and telephone number.
- When emailing to inquire about a returned product, always refer to the Return Authorization Number.

If SYNERGY determines that the unit was defective in materials or workmanship at any time during the warranty period, SYNERGY has the option of repairing or replacing the product at no additional charge, except as set forth below.

- All replaced parts become a property of SYNERGY. Products replaced or repaired under this warranty will be returned via ground shipping within the United States or Canada - freight prepaid.
- SYNERGY is not responsible for costs associated with expedited shipping, either to SYNERGY or the return of the product to the customer.

All warranty repairs outside the United States must be directed to the dealer or distributor from which you purchased the product.

INCIDENTAL OR CONSEQUENTIAL DAMAGE: In no event will SYNERGY be liable for any incidental or consequential damages arising out of the use or inability to use of any SYNERGY product, even if a SYNERGY dealer has been advised of the possibility of such damages, or any other claim by any other party. Some states do not allow the exclusion or limitation of consequential damages, so the above limitation and exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

FOR YOUR PROTECTION: Please complete the included warranty card within (10) ten days of the date of purchase so that we may contact you directly in the event a safety notification issued in accordance with the 1972 Consumer Product Safety Act.

CUSTOMER SUPPORT: Our dedicated and friendly staff is ready to help you with any warranty or product questions you may have. Please email us at Support@SynergyAmps.com. Thank you again for choosing SYNERGY.
