

George Metropoulos has spent over 20 years ripping, restoring and analyzing vintage Marshall amps. Specifically, 100 watt Superlead heads. Metropoulos Amplification owns a reputation for building the most historically and sonically accurate plexi replica amps available. With the release of George's Metro-Plex, all that knowledge was distilled and fermented into a modern design with best of the best plexi Superlead tones. Based on one particular plexi 100 watt from 1968, serial # SL/12380 (just 79 away from EVH's #1 plexi) the Metro-Plex delivers iconic plexi tones heard on countless rock records.

With the Metro-Plex Synergy module those tones are now available in a format that allows you configure your rig - your way, without compromising on authentic plexi tones. The gain, frequency response, feel and dynamics are fully captured and effortlessly dialed in. The EQ is highly tweaked and features more range than a typical plexi. From all-at-noon settings for full, balanced tones to more extreme settings for tweaked plexi tones the Metro-Plex module stays musical and inspirational. It feels like a great vintage amp under your fingers and it always cleans up beautifully with your guitar volume.

Dial the gain past 7 and you are well in to mod'ed plexi territory, picking up where stock plexi circuits top out. More aggressive with endless sustain, you will instantly recognize the mod'ed Marshall tones on tap. With two channels on the Metro-Plex Synergy module you can set one for stock plexi tones and the other for tweaked plexi tones. It's win-win!

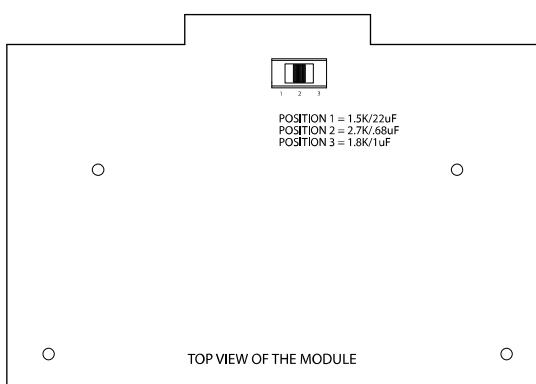

Two 12AX7 tubes provide four gain stages which are utilized to emulate the clipping, harmonics and dynamics imparted on your guitar signal by the entire plexi circuit. From the first gain stage to the output transformer, all of the plexi superlead magic is designed in and confirmed via rigorous A/B testing against #12380.

The Metro-Plex Synergy module features switchable gain and volume controls along with shared treble, middle and bass controls.

#### CATHODE SELECT SWITCH:

The METRO PLEX modules includes a three position switch which allows you to configure the input tube bass response to match the original circuit of the selected module Patent Pending. Switch setting will affect the feel and tightness. Each amp designer has a specific combination of components that makes up their input tube circuit. We have selected the three most popular combinations which you can access with this switch. You can experiment and try any of the positions to see what you prefer. The METRO PLEX modules will come preset to George Metropoulos's preferred setting which is switch position 2 (2.7K resistor and .68uF capacitor).

Synergy hardware and interchangeable pre-amps are protected under US patent.

## **SYNERGY LIMITED THREE YEAR WARRANTY**

**Thank you for choosing SYNERGY. We takes great pride in an extremely thorough testing procedure which is implemented on each product prior to shipment. In the unlikely event that you have a problem with your module, please refer to warranty below. SYNERGY stands behind our products like no other and we're here to help you!**

A dated sales receipt will establish coverage under this warranty, PLEASE KEEP YOUR PROOF OF PURCHASE TO USE YOUR WARRANTY. This warranty does not cover service or parts to repair damage caused by accident, neglect, abuse, normal & wear, disaster, misuse, abuse, over-powering, negligence, inadequate packing or shipping procedures and service, repair or any modifications to the product which have not been authorized or approved by SYNERGY in writing. **ANY MODIFICATION TO THE AMPLIFIER WILL VOID YOUR WARRANTY.** If this product is defective in materials or workmanship as warranted above, your sole remedy shall be repair or replacement by SYNERGY as provided below.

**CAUTION: Do NOT attempt to repair, modify or service your module by yourself!!! Please read the instruction manual for all safety notifications, warnings and instructions.** SYNERGY modules, have extremely high voltages that can cause serious injury or death. All repair and service work must be performed by SYNERGY or an authorized service center of SYNERGY. ANY UNAUTHORIZED REPAIRS WILL VOID YOUR WARRANTY.

**TUBES:** SYNERGY warrants the original purchaser that the specific tubes used in SYNERGY will be free from defects in material and workmanship for a period of 90 days from the original date of purchase. A dated sales receipt will establish coverage under this warranty. This tube warranty will automatically terminate 90 days after the original retail sales date. This tube warranty is in lieu of all other expressed warranties. If tubes fail within the 90 day warranty period your sole remedy shall be replacement of tubes as provided below.

**RETURN PROCEDURES:** In the unlikely event that a defect occurs please email support@SynergyAmps.com. A member of our staff will email you a response in a timely manner. Please include your phone number in case our customer service department needs to reach you. In most cases we can help you diagnose the problem over the phone. If a product must be sent to us, please follow the procedure outlined below.

- Defective products must be shipped, together with proof of purchase, freight pre-paid and insured to the Authorized SYNERGY Service Center or directly to SYNERGY.
- If a product must be returned to SYNERGY for warranty replacement/repair, a Return Authorization Number must be obtained from our Customer Service Department prior to shipping the product.
- Please contact SYNERGY Customer Service Department for the Authorized SYNERGY Service Center nearest you.
- Products must be shipped in their original packaging or its equivalent; in any case, the risk of loss or damage in transit is to be borne by the purchaser.
- Please send to: SYNERGY - 3383 Gage Ave., Huntington Park, CA 90255
- The Return Authorization Number must appear in large print directly below the shipping address.
- Always include a brief description of the defect, along with your correct return address and telephone number.
- When emailing to inquire about a returned product, always refer to the Return Authorization Number.

If SYNERGY determines that the unit was defective in materials or workmanship at any time during the warranty period, SYNERGY has the option of repairing or replacing the product at no additional charge, except as set forth below.

- All replaced parts become a property of SYNERGY. Products replaced or repaired under this warranty will be returned via ground shipping within the United States or Canada - freight prepaid.
- SYNERGY is not responsible for costs associated with expedited shipping, either to SYNERGY or the return of the product to the customer.

All warranty repairs outside the United States must be directed to the dealer or distributor from which you purchased the product.

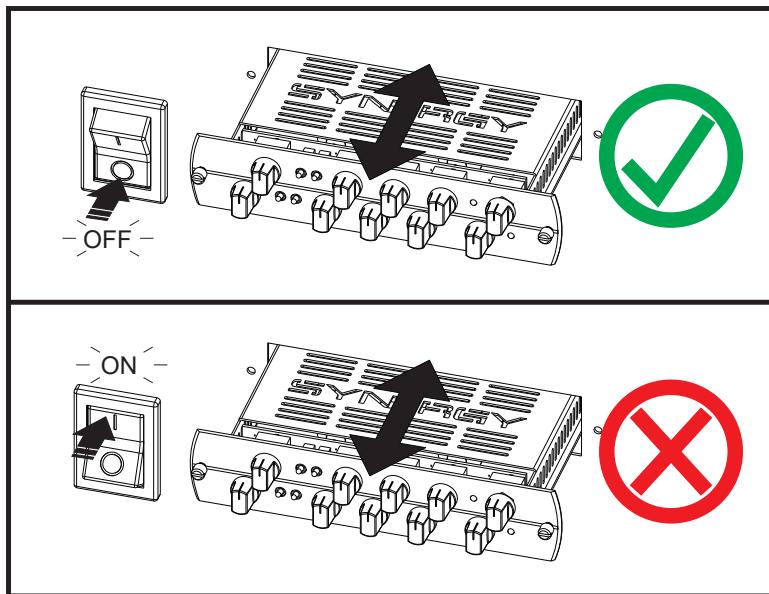

**INCIDENTAL OR CONSEQUENTIAL DAMAGE:** In no event will SYNERGY be liable for any incidental or consequential damages arising out of the use or inability to use of any SYNERGY product, even if a SYNERGY dealer has been advised of the possibility of such damages, or any other claim by any other party. Some states do not allow the exclusion or limitation of consequential damages, so the above limitation and exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

**FOR YOUR PROTECTION:** Please complete the included warranty card within (10) ten days of the date of purchase so that we may contact you directly in the event a safety notification issued in accordance with the 1972 Consumer Product Safety Act.

**CUSTOMER SUPPORT:** Our dedicated and friendly staff is ready to help you with any warranty or product questions you may have. Please email us at [Support@SynergyAmps.com](mailto:Support@SynergyAmps.com). Thank you again for choosing SYNERGY.

## WARNING! TURN OFF FIRST

You should always turn OFF your amplifier or pre-amplifier before installing or removing a module. Failure to do so can cause damage to your preamp module or amplifier.

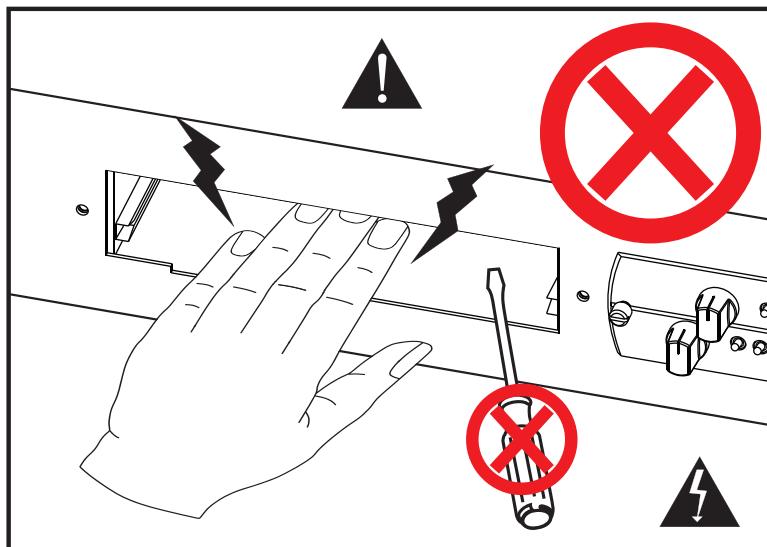

## WARNING! HIGH VOLTAGE PRESENT

Synergy modular products must never be operated without modules installed in all slots or without covering the unused slots. Slots without modules must be covered with a blank cover panel, available from Synergy Amps.

**Never place your hand or any other object inside an open module slot for any reason!**

If a foreign object accidentally falls inside an open slot, immediately turn the main power off and UNPLUG THE AC POWER CORD. Tip the unit forward to get the object to fall forward and out of the slot. If the foreign object has fallen inside and you cannot see the object, do not stick your hand or any object into the slot to search for it. Take the unit to a qualified service technician to safely remove it. Failure to heed the above warnings can result in personal injury or death. We want you to safely enjoy your Synergy Modular gear.

**Please read your amp/preamp's instruction manual for all safety notifications, warnings and instructions.**
