

SOLDANO SLO II – SYNERGY MODULE

Soldano's Super Lead Overdrive 100 (SLO-100) set the standard for modern high-gain amplification. In 1987 Seattle-native Mike Soldano built one of the first high-gain amplifiers with searing harmonics and the perfect balance of gain, sustain and tight touch response.

The SLO completely changed what players came to expect from amps. While the SLO's drive channel found it backing up renowned rock guitarists like Mick Mars (Motley Crue), Warren de Martini (Ratt), and Howard Leese (Heart), its clear and tactile clean channel and bluesy crunch also made it the first choice for non-metal stalwarts, such as Mark Knopfler, Eric Clapton, Warren Haynes, Gary Moore and Lou Reed to name a few. Today, the amp's tone and steadfast reliability remains a go-to for thousands of guitarists around the world.

The original SLO pre-amp captured the iconic Super Lead Overdrive sound and quickly became the most sought-after module in the Synergy community. The new SLO II offers three distinct upgrades to the original module design.

Independent EQs – The SLO II offers a dedicated three band EQ on both channels, allowing you to precisely adjust each one independently. **Crunch / Overdrive Switch** – Following the original SLO-100 amplifier, the SLO II module now features a Crunch / Overdrive select switch per channel. This allows YOU to choice either of the legendary Soldano gain options. You can select two Crunch Channels, Two Overdrive Channels or one of each! **Normal / Tight Switch** – The Normal setting offers the iconic Soldano sound. The Tight position maintains percussive articulation as you increase the gain, ideal for more modern guitar players.

The combination of these improvements allows for more precise and extended tonal sculpting, making this module the most versatile SLO preamp ever. And as you would expect, everything that makes the original pre-amp is here and accounted for. The unmatched touch response, the thick yet articulate voice, and the famous sustain continue to be its heart and soul.

CATHODE SELECT SWITCH:

The SLO II module features a three-position switch on the PCB which allows you to configure the input tube bass response to match the original circuit of the selected module. This will affect the feel and tightness. We have selected the three most popular combinations which you can access with this switch. For example, Friedman modules use position 2. The USA voiced modules typically use setting 1. The Soldano SLO II uses position 3. Of course, you can experiment and try any of the positions to see what you prefer. The modules will come preset to the designers preferred setting which for the SLO II module is position 3 (1.8K resistor and 1uf capacitor).

Synergy hardware and interchangeable pre-amps are protected under US patent.

SOLDANO SLO II Preamp Module Features:

- All-tube preamp module based on the SLO-100
- Two identical and fully independent channels
- Gain, Bass, Middle and Treble per channel
- Crunch / Overdrive switch per channel
- Normal / Tight switch per channel
- 2 x 12AX7 preamp tubes ensure rich harmonic performance
- Easy to install and remove from Synergy preamp docks

SYNERGY LIMITED THREE-YEAR WARRANTY

Thank you for choosing SYNERGY. We take great pride in an extremely thorough testing procedure which is implemented on each product prior to shipment. In the unlikely event that you have a problem with your module, please refer to warranty below. SYNERGY stands behind our products like no other and we're here to help you!

SYNERGY offers a limited Three (3) Year warranty to the original purchaser that this SYNERGY module will be free from defects in material and workmanship. A dated sales receipt will establish coverage under this warranty, PLEASE KEEP YOUR PROOF OF PURCHASE TO USE YOUR WARRANTY. This warranty does not cover service or parts to repair damage caused by accident, neglect, abuse, normal & wear, disaster, misuse, abuse, over-powering, negligence, inadequate packing or shipping procedures and service, repair or any modifications to the product which have not been authorized or approved by SYNERGY in writing.

ANY MODIFICATION TO THE AMPLIFIER WILL VOID YOUR WARRANTY. If this product is defective in materials or workmanship as warranted above, your sole remedy shall be repair or replacement by SYNERGY as provided below.

CAUTION: Do NOT attempt to repair, modify, or service your module by yourself!!! Please read the instruction manual for all safety notifications, warnings, and instructions. SYNERGY modules, have extremely high voltages that can cause serious injury or death. All repair and service work **must** be performed by SYNERGY or an authorized service center of SYNERGY. ANY UNAUTHORIZED REPAIRS WILL VOID YOUR WARRANTY.

TUBES: SYNERGY warrants the original purchaser that the specific tubes used in SYNERGY will be free from defects in material and workmanship for a period of 90 days from the original date of purchase. A dated sales receipt will establish coverage under this warranty. This tube warranty will automatically terminate 90 days after the original retail sales date. This tube warranty is in lieu of all other expressed warranties. If tubes fail within the 90-day warranty period, your sole remedy shall be replacement of tubes as provided below.

RETURN PROCEDURES: In the unlikely event that a defect occurs please email support@SynergyAmps.com. A member of our staff will email you a response in a timely manner. Please include your phone number in case our customer service department needs to reach you. In most cases we can help you diagnose the problem over the phone. If a product must be sent to us, please follow the procedure outlined below.

- Defective products must be shipped, together with proof of purchase, freight pre-paid and insured to the Authorized SYNERGY Service Center or directly to SYNERGY.
- If a product must be returned to SYNERGY for warranty replacement/repair, a Return Authorization Number must be obtained from our Customer Service Department prior to shipping the product.
- Please contact SYNERGY Customer Service Department for the Authorized SYNERGY Service Center nearest you.
- Products must be shipped in their original packaging or its equivalent; in any case, the risk of loss or damage in transit is to be borne by the purchaser.
- Please send to: SYNERGY - 5300 Harbor Street., Commerce, CA 90040
- The Return Authorization Number must appear in large print directly below the shipping address.
- Always include a brief description of the defect, along with your correct return address and telephone number.
- When emailing to inquire about a returned product, always refer to the Return Authorization Number.

If SYNERGY determines that the unit was defective in materials or workmanship at any time during the warranty period, SYNERGY has the option of repairing or replacing the product at no additional charge, except as set forth below.

- All replaced parts become a property of SYNERGY. Products replaced or repaired under this warranty will be returned via ground shipping within the United States or Canada - freight prepaid.
- SYNERGY is not responsible for costs associated with expedited shipping, either to SYNERGY or the return of the product to the customer.

All warranty repairs outside the United States must be directed to the dealer or distributor from which you purchased the product.

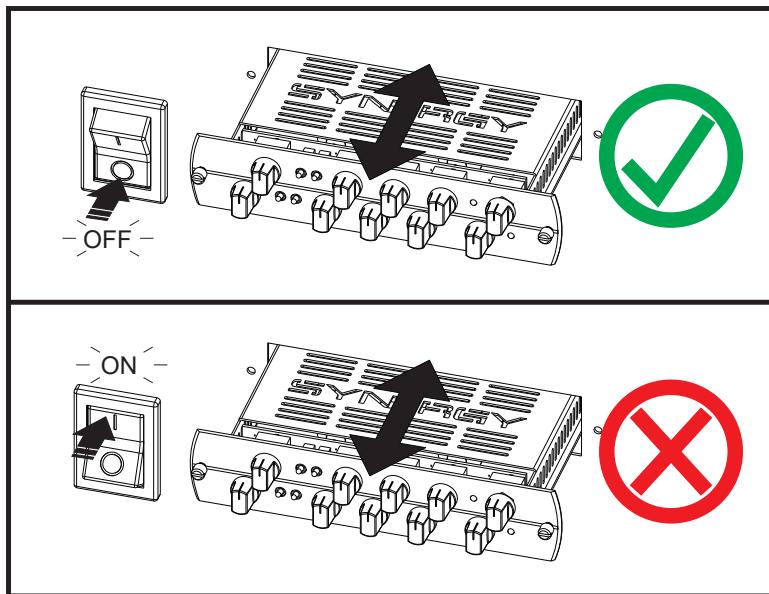

INCIDENTAL OR CONSEQUENTIAL DAMAGE: In no event will SYNERGY be liable for any incidental or consequential damages arising out of the use or inability to use of any SYNERGY product, even if a SYNERGY dealer has been advised of the possibility of such damages, or any other claim by any other party. Some states do not allow the exclusion or limitation of consequential damages, so the above limitation and exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

FOR YOUR PROTECTION: Please complete the included warranty card within (10) ten days of the date of purchase so that we may contact you directly in the event a safety notification issued in accordance with the 1972 Consumer Product Safety Act.

CUSTOMER SUPPORT: Our dedicated and friendly staff is ready to help you with any warranty or product questions you may have. Please email us at Support@SynergyAmps.com. Thank you again for choosing SYNERGY. Synergy hardware and interchangeable preamps are protected under US patent.

WARNING! TURN OFF FIRST

You should always turn OFF your amplifier or pre-amplifier before installing or removing a module. Failure to do so can cause damage to your preamp module or amplifier.

WARNING! HIGH VOLTAGE PRESENT

Synergy modular products must never be operated without modules installed in all slots or without covering the unused slots. Slots without modules must be covered with a blank cover panel, available from Synergy Amps.

Never place your hand or any other object inside an open module slot for any reason!

If a foreign object accidentally falls inside an open slot, immediately turn the main power off and UNPLUG THE AC POWER CORD. Tip the unit forward to get the object to fall forward and out of the slot. If the foreign object has fallen inside and you cannot see the object, do not stick your hand or any object into the slot to search for it. Take the unit to a qualified service technician to safely remove it. Failure to heed the above warnings can result in personal injury or death. We want you to safely enjoy your Synergy Modular gear.

Please read your amp/preamp's instruction manual for all safety notifications, warnings and instructions.
